WHO WE ARE

Aiding Rejuvenation 4 Kommunities Inc, The Ark Initiative, is a 501(c)(3) public charity that builds regenerative systems in which people, animals and land recover together. We test methods in the field, publish the data openly and turn proven results into practice any community can replicate.

THE CURRENT PROJECT: BORREGO SPRINGS DESERT FIELD TRIAL

In a critically overdrafted groundwater basin, we are running a replicated comparison of three bed designs: hugelkultur, deep-mulched and flat beds. Windbreaks built from donated pallets protect the plots. Soil moisture, water demand and plant performance are measured, every dataset is released as open data, and public field days put the results directly in growers' hands. thearkinitiative.com/field-trial/

WAYS TO HELP (CHECK ALL THAT APPLY)

☐ **Cash gift** \$ _____

☐ One-time ☐ Monthly ☐ Annual ☐ Pledge

☐ **Volunteer time** hours/month _____

☐ **Host or sponsor a field day**

☐ **Letter of support** for grants and permits

☐ **In-kind materials**

☐ Fencing

☐ Drip irrigation

☐ Soil moisture sensors

☐ Tools

☐ Wood and pallets

☐ Mulch

☐ Other: _____
